# How to order dog food

You can place a food order using the contact details below. Please allow 5 working days from placing your order to the delivery of food.

When ordering food, it is a good idea to have your puppy's health record to hand. You will need to give your name, your puppy's name and computer number, delivery address, and the type of food you need (this is usually Royal Canin Maxi Puppy or Royal Canin German Shepherd Junior).
